

## Estimates Considered and Tax Rate of Forty and Half Mills Struck

Separate School Supporters Will Pay An Additional Mill—Discount of Ten Per Cent. If Paid by End of October—Matter of Salary Increase at Power House Laid Over

The adjourned meeting of the City Council was held on Tuesday evening, with all members in attendance. A letter was read from Leggie and Manley respecting Moore and Kellner's property. After discussion, the matter was referred to the Property Committee and City Solicitor for report at next meeting.

Odel and Russell wrote re selling property to a client. It was agreed that the Council accept the sum of \$5.16 in settlement of account of taxes.

S. Hehn offered to purchase three lots on Court House avenue. Referred to Property Committee with power to act.

Mrs. V. Cunningham was granted a building permit for building on Beattie street.

The offer of A. Printoff for lumber on the former Bauer property, was not accepted.

The secretary of the Public School Board wrote that the board had approved of the proposal to levy 10 mills on farm property in the district. Letter filed.

The Utilities Committee, reported favorably on the proposed water and sewer extensions to Messrs. Kolb, Page and Thorne; also that increase

of salaries of employees at power house be not granted at present, but this question be brought up at the November meeting. Report adopted.

The request of A. Jensen to have electric light pole near his residence moved, was granted.

Ald. Marshall requested a sidewalk from Railway street to Immanuel church. The chairman of Public Works Committee reported that the appropriations had been expended, but the matter was referred to committee to build sidewalk if possible.

Council decided to pay half the expenses of Mr. Dave, of Red Deer, who was expert on the value of buildings at the court of revision. The estimates for 1927 were then considered and the tax rate was levied for the current year as follows:

General, 8 mills; public school, 16 mills; Sacred Heart school, 17 mills; dentures, 14½ mills; provincial levy, 1½ mills. The rate is therefore 40½ mills to public school supporters and 41½ mills to separate school supporters, with a discount of 10 per cent. for payment prior to October 31st; 5 per cent. if paid in November and 2½ per cent. if paid in December.

After passing the by-law striking the rate of assessment, the meeting adjourned.

## Packing Industry Intends to Buy All Porkers on Grade

Ottawa, August 27.—During Friday's session of the meeting of the joint swine committee now being held in Ottawa, the representatives of the packing industry on the committee stated that, effective for loading of hogs on September 17, intended for sale on Monday, September 19, and thereafter, settlement for all hogs bought will be made by the packers on a graded basis. This will apply whether the hogs are bought on the stockyards or shipped direct to packing plants.

The packers have found that several conditions complicate the blanket application of this principle. One of these is the fact that while in the west nearly all the hogs which are bought for export alive are first graded on the public stockyards, in Ontario such hogs usually go direct from the farms to the foreign markets. However, desiring to co-operate with all the interests engaged in the swine industry, it has been agreed to give a thorough trial to the buying of all hogs on a graded basis. At the end of the year the results of the complete application of the principle are to be subject to review.

WETASKIWINITES ARE BUYING HOMES

The large number of citizens who have been buying homes for themselves in Wetaskiwin recently is a very encouraging sign. Nothing could have a more stabilizing effect than this, as it means more people have made up their minds to make Wetaskiwin their home and will become more intensely interested in the development of the city.

During the past week the Johnson Agencies sold three houses and report other deals pending.

John Hedman has purchased the house on Dufferin street he has resided in for some time, from the B.C. Loan Co.

O. Lundquist has sold his house and lot on Railway street west to Chas. Frieman.

Alf. Sherbeck also bought the C. J. Swanson property on Lorne street east.

There are no desirable houses available for rent.

SUCCESSFUL PUPILS

The successful pupils of L. D. Wright in the recent examinations of the Toronto Conservatory of Music were: Intermediate — Isabelle Anderson (honors), Jack Walker (honors), Alec Lassell.

Elementary—Eleanor Finch. Primary—Kathleen Orr, Bob Ehemman.

ENTERING FOX BUSINESS

J. M. McCutcheon has branched out into the live fox business and has erected a number of pens on his property. He intends raising the blue fox for a start and has several pairs of the animals which he purchased some time ago from a leading dealer.—The Bashaw Star.

## ANOTHER ELEVATOR FOR HOBBEA

Work on the construction of another elevator at Hobbea was commenced last week, when the foundation was laid for the Alberta Pool elevator to be located there. This new building will have a capacity of about 40,000 bushels and will be modern in every respect. Voss Bros. have the contract. The structure will be north of the present elevators, and will be completed in time to handle a share of this season's crop.

I. P. Hodson, of Carstairs, has been appointed manager. This makes the fourth elevator for Hobbea.

## Average to Run Big On All Grains

No Damage Except in Extreme North-Eastern Part of Province—Cutting Not General Until Next Week—Prospects Good Throughout the West

(Issued by Department of Agriculture, Government of Alberta, Edmonton, August 27, 1927.)

The whole province gives promise of an excellent crop with high average yields of all kinds of grain. Late seeding, with abundant moisture in the early part of the season, is responsible for the somewhat late ripening of the general crop. The warm sunshine we have had this last week is ripening the crops with great rapidity. The earlier varieties of wheat, particularly that sown on lighter land, are now mature, and a considerable amount of cutting of this grain has already been done. Cutting will not be general, however, until the first week of September.

A careful check-up of the frost situation shows that there has been no frost damage except in the extreme northeastern section of the province, in some isolated districts in this area frost rather heavily. Except in the above area the province is entirely free from frost damage. Hall damage has been more prevalent than usual, with the result that damage from this source will be slightly greater than average. A few sections. The damage from this source, however, is negligible.

Notwithstanding the losses caused by the above mentioned agencies, if no further losses occur, we are confident that the province will have the largest total yield of wheat in its history. A particularly significant feature this year is to be found in the fact that there is a uniformly good crop in every section of the province.

## CANADIAN CATTLE TOO DEAR FOR GREAT BRITAIN

Winnipeg, Aug. 27.—Great Britain wants Canadian cattle on the hoof, but she cannot pay Canada's price as it is now the highest in Canada. Henry Ridpath, vice president of the Canadian Chamber of Commerce in London, England, Mr. Ridpath is on his way to the British Isles after a tour of Western Canada in the interests of the Chamber of Commerce.

During the high price in Canada, kept up by United States demand, the export of live cattle from the Dominion to Great Britain has fallen off from 100,000 head in 1925 to about 5000 so far this year, Mr. Ridpath said.

## Export Via Vancouver to Enjoy Advantages Same as East-Bound

Board of Railway Commissioners Issues Judgment on Probe Into Freight Rates—Adjustments Made Will Prove of Particular Advantage to Grain Shippers of Alberta and Saskatchewan

Ottawa, Aug. 27.—The Board of Railway Commissioners, after a hearing extending several months in respect to export rates on grain, flour and other commodities via Pacific and Atlantic ports, issued judgment Friday, ordering that the export rate on grain via Vancouver shall have the same advantages as grain for export eastward to the head of the lakes, as obtains under the Crow's Nest Pass agreement. The Board also ordered a reduction on grain rates from head of the lakes ports via rail to Quebec and Montreal.

The reduction via Quebec is from 34½ cents per cwt. on wheat, to 18.24 cents per cwt. The board's order also provides that the rate to Montreal from lake ports shall be on a parity with the new rates stipulated on grain moving to Quebec. This reduction, however, does not affect the waterborne rate, which practically determines the wheat export movement via Montreal and Quebec. The reduction in the rate via Vancouver will undoubtedly materially encourage grain export from the prairies via Pacific ports through the Panama Canal, experts here state.

Rail Revenues Cut

Railway officials here state that the order will result in very substantial reduction in railway revenues running into millions of dollars annually.

The board orders that the rates on grain and flour from all points on the Canadian Pacific branch lines in the three prairie provinces to the head of the Great Lakes be equalized with the present Canadian Pacific main line rates. Other railways in the prairie provinces are required to adjust their

rates correspondingly. This, it is stated, will mean reductions from every point located on a branch line of any railway in Western Canada which exceeds the main line scale of rates. The reductions in rates on grain and flour will involve, according to rate experts, in the aggregate, several million dollars which will accrue to the advantage of the grain growers of Western Canada.

Alberta Favored

The export rates westbound to the Pacific Coast are also revised so as to put all branch line points on a footing on an equality with C.P.R. main line rates. This is an important readjustment which it is expected will be of advantage particularly to grain shippers in Alberta and Saskatchewan.

Freight traffic on a merchandised shipped from distributing centres in the three prairie provinces are ordered to be revised so as to secure the advantage of the short haul mileage. At the present time these distributing tariffs are based exclusively on C. P. R. distances.

The rates on grain for export from Port Arthur, Port William, Westfort, Armstrong to Quebec, via the Transcontinental Railway are reduced to 18.24 cents per 100 pounds and furthermore Quebec is put on the same footing as Montreal in respect of export rates on grain from Georgian Bay ports and from Toronto and points West on general merchandise.

The Pacific branch lines in the three prairie provinces to the head of the Great Lakes be equalized with the present Canadian Pacific main line rates. Other railways in the prairie provinces are required to adjust their

Confederation and After;  
Sixty Years of Progress;  
Child Welfare in Canada

Although health is primarily a matter for the provinces, so decreed by the British North America Act, through the Federal Department of Health, the Canadian Council on Child Welfare, and numerous voluntary bodies, a vast amount of practical and educational child welfare work is carried on nationally. It was started by Miss Charlotte Whitton, executive secretary of the Canadian Child Welfare Council, at the Child Welfare Committee of the League of Nations, in Geneva last year, that in the child health field all the Canadian provinces, with perhaps two exceptions, compared most favorably with the work being done in Europe, and especially in Great Britain, in all departments except that of ante-natal care.

Nowadays the mothers of children may have complete advice on their care, clothing, food and health from either the Child Welfare Council or the child welfare department of the Federal Department of Health, under Dr. Helen MacMurchy, in addition, of course, to the individual efforts of the health departments of the various provinces. Indeed, there is little excuse for careless upbringing in the first eight years of life, since expert advice is available to all who apply.

This educational and practical work has had a marked effect on infant mortality, which in the last year for which figures are available, had dropped to seventy-eight per thousand living births. In 1920 it had been one hundred, in the registration area which excluded Quebec. The latter province has come into the registration area, and a similar substantial reduction in infant deaths has been noted.

Canada is distinguished for the large amount of voluntary work done in aid of children. The Victorian Order of Nurses has for years given a great public health service, which has been especially directed towards mothers and children. Their work in

EVEN RICE HURT

Adierka relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowels, it removes old waste matter you never thought was in your system. Let Adierka give your stomach and bowels a REAL cleansing and see how much better you will feel. It will surprise you! Northern Drug Co., Wetaskiwin, (in Miller by Graham's Pharmacy).

outlying districts has been invaluable and has resulted in an undoubted saving of many lives.

The Junior Red Cross, with its membership of 100,000, and the Kiwanis and Rotary Clubs, have been especially engaged in aiding crippled children. Recreational activities have been stimulated by the Boy Scouts and the Girl Guides. Educational and patriotic ideals have been aimed at by the Imperial Daughters of the Empire, and also by the Catholic Women's League, and the Women's Institutes. Of special interest has been the work of the Canadian Tuberculosis Association, the Canadian National Institute for the Blind, the Social Hygiene Council, which undertook sex education and the prevention of sex of social diseases, the Canadian Hygiene Committee, which has done excellent research in child training, habits, and psychology.

Indeed, there are few organizations in Canada which have not some aspect bearing upon child welfare. In addition to the charitable examples named, many other organizations contribute to the great cause. Passing mention must be made of the Department of Agriculture improving the milk supply, the Mothers Allowances Act in some of the provinces, and the Workmen's Compensation Act.

An indication of the direction in which the Dominion is working for child welfare is given by the high ideal of the Child Welfare Division of the Federal Department of Health.

"To help the home.

"To help to find a true home for every homeless child.

"To save and preserve maternal and child life.

"To maintain and improve the health, strength and well-being of mothers and children.

"To make known to all Canadians the principles of maternal and child welfare, and the supreme importance of home life to the individual and to the nation, so that national interest in these matters may be aroused and the best modern methods for securing the welfare of the home and the nation may be understood and carried out."

TAKES SPECIAL PRIDE  
IN FLOWER GARDENS

The following from the Vegreville Observer applies to Wetaskiwin equally as well as it does to Vegreville:

"Not for the purpose of making invidious comparisons but as a word of encouragement to the Vegreville horticultural society and others interested in beautifying the town, the Observer ventures a word or so with reference to what Camrose is accomplishing along similar lines.

Camrose takes special pride in its well-kept flower beds and beautiful gardens. The pride is quite justified. With streets which are nicely boulevarded, with fine grassy lawns, a profusion of flowers, shrubs and trees of all kinds, backyards and lanes kept in clean condition, Camrose citizens appear to vie with each other in making their town a pleasant place to visit. It must be said too that the Vegreville horticultural society, organized in 1926, or ten years later, has done fine work within its brief span of existence, the main credit for which should go to Peter Svarich. In another five years, it may be confidently anticipated that Vegreville will add its own with Camrose, providing our citizens join heartily in that most pleasant of recreations—flower gardening.

"The Camrose flower growers are strong on dahlias and gladioli and stronger still on massing these flowers. Perhaps the only fair criticism of that phase would be to say that while a massing plan makes an effective showing, it is also a wee bit formal. There are no particular surprises awaiting one when he leaves one dahlia; he just sees another dahlia; there is nothing to take off the dahlia curse. But with the gladioli. This is not implying that there are no other flowers grown; far from it; there are all kinds of them in immense quantities but they too are shrouded off by themselves. To a rank amateur, like ourselves, the effect, while pleasing enough, lacks spontaneity.

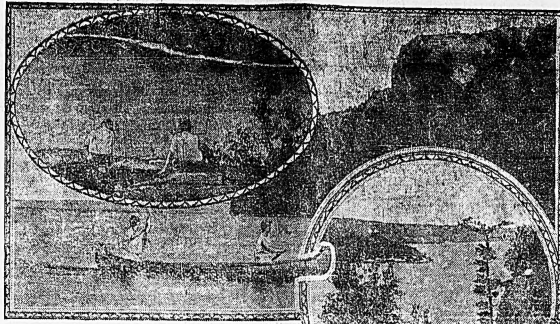

"The horticultural exhibition held last Friday and Saturday, was a revelation of what can be accomplished in a town like Camrose—or Vegreville. Their skating rink was filled with exhibits from the flower and vegetable gardens; an astonishingly good showing for a town to make."

Feminine Privilege—The right to demand sex equality or masculine civility, which ever best suits the needs of the moment.

Husband (arriving home late)—"Can't you guess where I've been?"

Wife—"I can; but tell your story."

## Hidden Treasure of Bon Echo

Central Photo—Scene at Bon Echo. The highest cliff in the "Big Rock" where the silver treasure is supposed to be located. Upper inset—Looking down from the cliffs at Bon Echo. Lower inset—Typical scene at Bon Echo.

While the very atmosphere of Bon Echo, one of the most popular summer resorts in the Highlands of Ontario, breathes of romance in many ways, there is nothing to tell of the desperation with which men sought a hidden secret, hoard of silver from the great rocky walls that rise like ramparts from the blue waters of the upper and lower Mazinaw.

There is a host of legends about the lost fortune of silver but the story that is most generally accepted is that it was hidden brought out of the district by the Indians and used in exchange for blankets, axes, whiskey and firearms and that they had stored much silver in a cave in the cliffs. The story goes that one John Myers, who kept a store at Myerstown, often exchanged goods for the Indians' silver, but could never discover where the cache actually was. His son, however, was brought up with the Indians and across country to Bon Echo. Somewhere on top of the cliff they came upon two flat stones. By forcing these stones in opposite directions they discovered an opening about twelve inches in diameter, through which Myers forced himself. What the flame from his pin-point torch disclosed is doubtful, but there was silver in some form, so it is told, and immense quantities of it. Filling his pockets and a small bag with the treasure, the adventurer made mental note of the location and commenced the return journey.

The lake was rough and the remains of the whiskey were lost. The two Indians, sobered by their wetting, became sorry for their action and fearful of the vengeance of their tribe. In an attempt to dispose of Myers, they upset the canoe and lost their own lives, while the survivor made a painful walk back alone to Myerstown, when he soon succumbed to pneumonia. Myers left a map and description of the location, and it is his map which up till quite

recent years has led men to waste their years and substance on the supposed treasure of Bon Echo.

In 1900, George Merrill, grandfather of the present operator of Bon Echo Inn, Merrill Denison, well known writer, and one John Bull, were among the first to make an attempt to wrest the secret from the lock. Coming to the foot of the cliff which marks the juncture of the upper and lower Mazinaw Lakes, Bull took the southern face, while Merrill worked in the opposite direction, and it is said to be the only man to ever see the cave again. Fearing that as Bull had once killed a man, his life would not be safe if his secret were known, he kept it to himself, and later the two men left, one discouraged and the other hoping to return again. He did return, but the great forest fires had so changed the topography of the top of the rock, that he was unable to locate the silver for a second time.

Later, a man named Van Asselstein becoming possessed of the map, mortgaged two excellent farms on the Kingston Road, and spent fourteen years prospecting on the rock to no avail. Then in 1911, two partners, Silas and Scott, were told by a spiritualist, the famous Anna Eva Fay, that they would find a hatchet dropped near the spot by John Myers. They spent over two thousand dollars (all they possessed) in the search, and sure enough found a rusty axe-head with the initials J. M. stamped upon it, but they found nothing else.

Bon Echo, with its ideal holiday facilities, and its treasure romance, has a short motor drive from the Canadian Pacific Railway Station, Kaledar, on the Montreal-Toronto line.

DID YOU EVER  
STOP TO THINK

(By Elton R. Waite, Secretary, Shawnee, Okla., Board of Commerce)

John M. Weekley, editor of the Ennis (Texas) Daily News and four associated weeklies, says:

THAT if you have anything worth selling it is certainly worth telling about. THAT you can't secure the best results and the most customers unless the public knows about what you have they need or want.

THAT daily and small town newspapers are the best medium through which to make your announcements to the people whom you may reasonably expect to be your customers, because they read their home papers more closely than they do any other publication, and at a time when they have the time to think of what they need, and the inclination to make the investment in the thing needed.

THAT the business man who waits for people to come to his place unbidden, to make their purchases, is standing in his own light. He will catch a few customers, whereas, by advertising he can increase his business many times, and thus cut down the percentage of overhead and show a profit which is the goal of every right-thinking business man.

THAT business goes where it is invited, hence, the necessity of keeping your invitation constantly before the public, all of whom are possible customers or friends of those able to do you a good turn if you make your appeal attractive.

THE CONSTANT ADVERTISER IS THE ONE WHO GETS AND HOLDS THE BUSINESS.

## THE NINTH HOUR

Any man who is willing to work eight hours a day can make a living. But he must work nine to make a profit.

Men of ordinary brains who are satisfied to stand still can always "get by" if they work the so-called "full day."

## Who Pays for Publicity?

The store that doesn't advertise pays the advertising bill for the one that does.

Every merchant in business pays advertising, whether he uses it or not. If a competitor's advertising takes any business away from him, the profit he would have made on the lost sale is what his competitor's advertising costs him.

You have, perhaps wondered how some stores can afford to spend such enormous sums for advertising. That is easy to fathom. Their competitor, who doesn't advertise and whose business they take, pays for their advertising.

Say the Jones family is a customer of your store. They have \$60, which they intend to spend with you. They read the advertising of your competitor and are induced to spend their \$60 with him instead of tending it with you. The store makes 20 per cent, or \$12 on the sale. They don't see it, but they will say the \$12 advertising cost and have \$11 profit they would not have had only for their advertising.

Who paid for this advertising?

Did the advertiser pay? No. He got the cost back, and profit besides.

Did the purchaser pay? No. He paid only the regular price.

Then who did pay?

The store that did not advertise paid for his competitor's advertising. He not only paid for the other fellow's advertising, but he paid out of his cash drawer the profit his competitor made on the sale. The store that doesn't advertise pays the advertising bill for the one that does. He pays in loss of sales, profits, and increased costs.

The store that loses business through not advertising has such high overhead and unit sale cost that it cannot possibly sell goods as cheaply as the store that increases its sales and reduces its costs with advertising.

Only General Motors  
could offer  
Such high quality  
at such low price

ONLY General Motors could produce the beauty and comfort of Pontiac's Fisher built bodies, with plush upholstery and luxurious interior appointments. Only General Motors, with its vast International Proving Grounds, could give the definite assurance of Pontiac's superb performance, rugged durability and long-life economy. And only General Motors, with its mammoth purchasing and manufacturing facilities, could offer such unexampled quality and such phenomenal value in a low-priced six, as the New and Finer Pontiac Six... at NEW LOWER PRICES.

day." But men of a higher type must pay a higher price for the satisfaction of large successes. The ninth and tenth and eleventh hour are the golden hours or profit hours that are spent, not in idleness or perilous courting, but in work and study and self-equipment for the better opportunity that is sure to come. To make your life increasingly effective and happy, seize that ninth hour and use it for progress.

## THE MODERN DANCE

The editor of a paper in a neighboring town went to a dance recently for the first time in many years and expected to see the same graceful waltzes and hear the rhythm of the old time dances. What he did see and hear he described in his paper as follows:

We stopped and took a peep into the dance hall the other night and were fully convinced that some of the best wrestling matches the world has ever known have been missing a fortune in the sale of ring-side seats. If it hadn't been for the music, arrests for assault and battery could have been made promiscuously. Some of the dancers showed characteristics of first class wrestlers. A-1 contortions and some record breaking hop, kip, skip artists were present, with hair oil running down their spinal columns and their hair plastered back over a cranium that had nothing in it but a burning desire to spar with the Charleston or "Plea hop."

Yes, our kid was there backing 'em around the hall just like the rest, but with different movement than he puts on when he pushes the lawn mower at home. An eighty year old man with the spine would be a real bean, brained in a hall room nowadays. One couple swayed everything but their feet and they didn't have a parking sign either. Some of the "chicks" bent over their partners at an angle that would make the Hunchback of Notre Dame look as straight as a telephone pole. Others grasped their "dill" girls in a viselike grip while some held them at an arm's length and kicked them on the shins. There were more girls there who rolled their heads than will ever roll a perambulator. The music resembled a 1913 car running through a galvanized corrugated culvert.

Look at the label on your paper.

"What," asked the ethereal girl in the pink blouse of a young man who was staying rather late, "What do you consider God's greatest gift to man?"

"Woman, every time," said he, with an engaging smile.

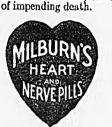

"Oh, no," she answered, with a yawn, "It is Sleep."

"Next to woman," returned he, gallantly.

Then she arose with considerate haste and walked upstairs, while he hovered around for his hat, wondering what had happened.

HEART TROUBLED HER  
COULD NOT SLEEP  
HAD BAD DREAMS

It is impossible for those whose heart action is weak and whose nervous system is shattered, to get undisturbed and refreshing sleep. Their sleep is broken into by the irregular beating of the heart, smothering and sinking sensations, starting in the sleep, terrible dreams, shortness of breath, nervousness and fear of impending death.

offer the blessing of sound, refreshing sleep by strengthening the heart and toning up the nerves.

Mrs. Louise Haglin, Golden Lake, Ont., writes: "For several years I was greatly troubled with heart trouble. I was so nervous and short of breath I could hardly sleep at night, and if I did sleep for a while I had bad dreams. I managed to keep at my work somehow until I began to have dizzy spells which got so bad I had to give up. I used many kinds of medicine, but found no help until I went to the druggist's and got a box of Milburn's Heart and Nerve Pills. After the first box I found a great change and after two boxes I was as well as I could be."

"I told my mother, who had choking sensations, about them and they helped her greatly."

## Facts and Figures About Canada

Canada, after having celebrated the sixtieth anniversary of the signing of the confederation pact, has many things of which she may be justly proud. Endowed with almost unlimited resources, the development of which has yet hardly begun, and with the excellent trade relations existing with the other parts of the empire and with our great sister nation to the south, Canada is bound to progress in the next sixty years much more rapidly than she has in the past sixty years.

Comparison of Canada as at Confederation and now gives some idea of the progress she has made.

Area, in square miles	570,000	3,725,000
Population	3,500,000	9,350,000
Wheat grown, bushels	16,000,000	410,000,000
Mineral production	\$4,000,000	\$248,000,000
Total foreign trade	\$115,000,000	\$2,324,000,000
Bank assets	\$20,000,000	\$2,134,000,000
Life insurance in force	\$35,600,000	\$5,000,000,000

Canada produces ninety per cent of the world's cobalt; eighty-eight per cent of the world's asbestos; nine per cent of the world's silver; eight per cent of the world's gold.

Canada is the largest producer of newspaper paper in the world, has the largest per capita horse power development in the world, and grows for export the greatest amount of grain.

The per capita wealth is \$246, which is exceeded only by that of Great Britain and the United States.

Every country which participated in the late war suffered from financial depression. Canada has weathered the storm well, and today is well away on a period of continued prosperity.

## PA'S SON-IN-LAW

## TOLD OVER THE TEACUP

### SHORT SKIRTS DISPEL ROMANCE

Short skirts are taking the romance out of life for young girls. They now have nothing to look forward to in the dress transition time that formerly marked the age when they quit being little girls and became young women.

In the old days before all of the gentler sex wore short skirts one of the most anticipated days in a girl's life was when she would wear her first long dress. It was parallel to the small boy becoming a real young man when he put on his first long trousers. This glorious moment survives to the boy, but it is denied to the girl. She has nothing to plan for the time when she "gets big." She is wearing short dresses now, and she will be wearing them short when she reaches young womanhood, but aside from her "big talk" and the addition of a powder puff there is no new era for her as life develops.

### WOMEN AND POULTRY

Women can and do make poultry farming profitable. Mrs. H. Maciver, who is an inspector of the Board of Agriculture for Scotland, told the World Poultry Congress, "That those who take it up must have birds sufficiently to place the welfare of their stock before their personal comfort, must have a burning energy that has no fear of work, and must be observant and pay attention to detail," she warned.

"Employment for women on farms is rather disappointing to the educated woman who has trained, as the openings are few and salaries are small for experienced women," Mrs. Maciver remarked.

Women have been prominent as students and lecturers since Mr. Edward Brown started the first Poultry School in Britain in 1899. Mrs. Maciver went on. In the early days, Maciver instructed in Britain was almost always given by the dairy instructor. Today in Scotland the emphasis is now put upon the poultry rather than the dairy instruction. There are between 20 and 40 instructors, and their work covers every part of Scotland. In England, and to a less extent in Wales, women are losing ground. In Ireland, as well as in Scotland, all poultry teaching appointments are held by women.

The work of the poultry instructor in Scotland is hard. After three years at college and six months on a farm, she begins with a very small salary. Advisory visits for planning farms, diagnosing disease, discovering causes of poor production or small profits, handling and selecting stock, setting up incubators, demonstrating marketing methods for eggs and poultry, and on occasion demonstrating marketing methods for egg sales take up the greater part of the fore and afternoons. Poultry instruction occupies the autumn, winter and spring months, and dairying only the summer.

**Hands Need Same Attention as Face**  
Hands are too age-revealing to neglect.

Cold cream your hands as regularly as you cream your face. Apply a bleaching lotion—preferably one that has some slight oily consistency—every night. If your hands are very dry, keep this lotion on all night and cover your hands with a pair of old gloves to work the lotion into the skin.

Once a week rub half a lemon over your hands to keep them white. Cream afterwards, as lemon is drying.

Housewives can avoid "dishwater hands" if they exert care. Wear rubber gloves for all the worst work

about the house. Keep a bottle of good lotion in your kitchen. Wash your hands with toilet soap after dirty work and apply lotion every time you wash them.

If your nails are dry and inclined to break, rub yellow steeple or some nail cream around cuticle each night. Get or give yourself a good manicure at least once a week.

**To Rid Eyes of Wrinkles**  
Frowns can spoil the prettiest face and always are undesirable. For they are associated with ugly, cross dispositions.

As a matter of fact poor eyes, defective hearing, worry and too great concentration on a subject may all contribute their quota.

Just what causes you to frown and overcome the habit. If possible, then follow this instruction to get rid of the wrinkles between the eyes that frowning so often brings.

Press out the wrinkles by ironing with the first fingers of both hands, used alternately in quick, hard upward strokes. Always use cold cream for lubrication when massaging.

At night wear frowners, small triangular bits of court-plaster which you can buy or cut yourself. Apply, after you have massaged for five or ten minutes, with the wide part between the eyebrows and the point towards the nose.

**To Lift Sagging Mouth Muscles**  
To lift sagging muscles around the mouth, massage and exercise are needed. And of course, if possible, cultivate a happy expression, as worried, dissatisfied expressions cause more drooping mouths than years do.

Massage when applying skin food at night. Place the two first fingers of each hand together at the center of the chin. With firm, upward stroke massage around mouth, pushing the flesh upwards. When fingers meet at middle of upper lip, remove fingers and begin again. Repeat 10 times.

To exercise—Purse lips to form a Q. Hold a few seconds while you repeat about, "Q-Q-Q." From that position stretch mouth open tautly to say "X," making as much of a face doing it as possible. Repeat a dozen times morning and evening.

**It's the Woman**  
"It's the girls." This is the answer which Judge Charles A. Oberwager, a New York city magistrate, gives to question, "What's wrong with the times?"

The Judge says that boys have not changed, but girls have. He blames all the troubles of today on the female of the species.

"The way the average girl dresses and conducts herself before boys is a direct incitement to evil," he opines.

Perhaps he's right, but he does not consider cases which might put a different face upon modern femininity conduct.

The causes have to do with woman's floundering attempts to be an individual, a real person, after long centuries when she was regarded as nothing but a possession of some man, her father's or brother's or husband's. What more natural than that she makes a fool of herself until she is accustomed to her new status? Few people drive a car very well the first few hours of its ownership, either.

**Too Fat?**  
Here's a jury that had a new job!

They sat in on the trial of a portrait painter charged by the lady whom he painted of making her look fatter than she was. The picture was in court, of course, and it was up to the jury to decide. It really would probably have been easier to send the lady to the electric chair than acquit the artist.

Seriously, though, it's true that it seems physiologically impossible for human beings to really see themselves as others see them. This is especially true of ladies weighed down with too much solid flesh. What a shock we get every time our pictures are taken or we see ourselves in a true mirror, and not the kind of mirrors we like!

**Simple Hints for Manicuring Nails**  
Finger nails should round gently to conform to the natural arching contour of your finger-tips. The too-pointed nail, and the over-polished fingernail, denote poor taste.

To give yourself a manicure, soak your hands in tepid soap suds for 15 minutes to loosen the cuticle. Push the cuticle back gently with orange stick wrapped in cotton, until the half moon shows at the base of your nails.

Never cut the cuticle, if you will remember to push this cuticle back with the towel every time you dry your hands, it will soon loosen and take form.

Round your nails by filing with sandpaper sticks. Tint slightly and polish with a buffer.

**Curled Eyelash Quite the Vogue**  
Never cut your eyelashes except under the direction of an expert. For although clipping the lashes does stimulate growth it is a dangerous and delicate operation.

Brush your eyebrows each night in the following manner: Shut eye part way and, with a small eyebrow brush, stroke the lashes down a few times and then brush them from the inside up so that they curve back.

The latest beauty fad is to curl your eyebrows.

Take an invisible hair-pin and heat as you would an iron. When warm—not too hot—catch the lashes between the prongs and curl back as you would curl your hair over an iron.

Massage eyelashes at night very lightly with yellow vasoline. When make-up is used, use mascara sparingly, brown shade if you are a blonde black if dark.

**Jeweled Shoulder-pin**  
Jeweled sprays of flowers, how-knots and other designs of pins are usurping the popular flower's place for left shoulder wear.

**Waffle Dessert**  
If you have an electric waffle iron serve waffles with fresh crushed fruit for dessert. They are ideal after a light luncheon.

**Modified Felts**  
Pelt hats for mid-summer take flower or geometric design inserts in satin of matching shade. Some have satin crowns.

**Cape Dress**  
For evening wear for outdoor concerts or roof garden, a Jenny sleeveless lace dress has its lace cape lined with pink georgette.

**Satin Undies**  
Soft satin undergarments are in high favor. They are trimmed with contrasting lace or tucked georgette or hand-worked handings.

At 10:30 o'clock sharp in the morning, starting at C.P.R. crossing on Edmonton-Calgary Highway.

ADMISSION, including grandstand, 50c; Children, 25c; under 12 years, free.

City Band in Attendance  
Dr. N. A. JOHNSON, President.  
C. B. MEMURIO, Secretary.

### DEVASTATING STORM ON EASTERN COAST

Halifax, N. S., August 26.—Eight lives were wiped out, four men are missing and feared drowned and material damage at more than \$1,000,000 was done crops and shipping by the hurricane-like wind and rainstorm that held Nova Scotia from Cape Sable to Cape North solidly in its grip through out Wednesday night and the early hours of Thursday morning.

Dozens of small craft, pleasure yachts, motor boats and small fishing vessels were dashed to kindling wood when hurled by the angry seas against the rock-bound coasts. At Sydney, a large warehouse was ripped from its foundations on one wharf and hurled by the 60-mile gale a distance of 50 feet, against a structure on a neighboring wharf.

A large vessel was sunk at Cabot's Cape Breton, with a loss of four lives.

Two vessels were landed high and dry in Halifax harbor.

The crops throughout the province suffered to an extent that will be unknown for several days. Professor Saxby Blair, of the Dominion Experimental Farm, Kentville, estimated the damage to the apple crop at from 15 to 25 per cent, this entailing a loss of about 40,000 barrels. The hay and other field crops in many sections are reported a total loss. The highways of the province in some sections last night were reported as under eight feet of water.

### HARVEST IS NOW IN FULL SWING

The harvest is now in full swing in the Wetaskiwin district and a few of the farmers have finished cutting their wheat. The rain of Tuesday interfered with the cutting, but it is hoped the weather is now settled and that the farmers will have an opportunity of getting this crop garnered in good condition. Up to date there has been no frost in this district.

### ALL CANADA SOON IN PENSION PLAN, STATES MINISTER

Edmonton, August 26.—"I have been encouraged to hear that nearly all of the provinces will soon participate in the old age pensions scheme," said Hon. Peter Heenan, Dominion Minister of Labor, in an interview here Thursday. Hon. Mr. Heenan arrived from the coast Wednesday night in his special car, and will attend the remaining sessions of the Trades and Labor congress convention.

Mr. Heenan sees in the pension scheme something not already mentioned, namely, a way in which the provinces will reduce the burden carried through the old father homes, as their revenue will now benefit indirectly from the federal treasury in all provinces where the act is effective.

"The Federal Government imposes no restriction on the payment of the pension to old folks in such institutions. In fact, where the act is effective, it insists that the \$20 monthly be paid to all such persons, thus giving them a greater sense of independence and a feeling that they can, to some extent, pay their own way," the minister points out.

### STANDARD LAW ON COMPEL-SATION IS CONGRESS REQUEST

Edmonton, Aug. 26.—Extensive reports urging legislation in the various provinces that will bring all Canadian workers under uniform workmen's compensation laws were presented to the Labor Congress convention of Thursday afternoon by a special committee headed by Senator Clifford Robertson. Hailed by delegates as an important stand, one well within reasonable prospect of early attainment, as uniform industrial laws in all provinces are proving a great factor in making for the contentment of the Canadian worker and promoting national harmony, the main portion of the report was adopted and the clauses seen assured of approval.

Congress was asked by Delegate Corcoran, Toronto, to bring pressure upon the liquor control boards in every province where they exist, to have these boards insist on brewers' pay-

## Tell'em and Sell'em With Printers' Ink!

Possible buyers are best approached by means of the printed word—setups that "bristle" with appeal in their verbiage and illustrations. Our cylinder and platen presses will turn out that kind for you.

## SPORTING NEWS

## MANY OFFICIALS ARE NAMED TO HANDLE THE TRACK AND FIELD CHAMPIONSHIPS ON LABOR DAY

Intending Contestants Urged to Be at Exhibition Grounds To-Morrow Evening to Receive Final Instructions—Must Report to Clerk-of-Course McMurdo on Monday to Secure Competitors' Badges—Prizes Now on Display Are Beautiful

In the windows of French's Jewelry Store are now displayed the prizes for the junior track and field championships which take place under the auspices of the Wetaskiwin Sports Association at the Exhibition Grounds next Monday afternoon (Labor Day), commencing at 1:30 o'clock. There is only one silver cup on display, but a replica will arrive this week. The two cups will be presented to the boy and girl winning the most points in their respective classes, emblematic of the all-round championship. The championship events will be: 50 yards dash, running high jump, running broad jump, standing broad jump, shot, hop, step and jump, putting 12 lb. shot, and discus throw (all for boys and girls). In addition there will be relay races (four runners to a team) for boys and girls, and also 50-yard dashes for boys and girls under 15 and under 13 years of age. The winner of each event on the program will be presented with a medal.

Do you want sport to thrive in this city? Is so, you will give every encouragement to the activities of the Wetaskiwin Sports Association. Work is now under way to transform the Exhibition grounds into a first-class athletic park, to accommodate baseball, football, lacrosse, basketball, track and field athletics, etc., with facilities second to none in the province. It's going to take a lot of money to do the job right, and the Association has assumed a heavy burden in endeavoring to find ways and means. It's up to the people of the community to turn out en masse on Monday next; it will mean much in the way of encouragement; and besides there'll be three big shows for the one admission.

In the morning at 10:30 o'clock, commencing at the C.P.R. crossing, a bicycle race will be run on the Edmonton-Wetaskiwin trail, for which all boys under 18 are eligible, and for which appropriate prizes are being given. On the afternoon program there will also be three boxing bouts between Alberta amateur champions from Edmonton.

The Marlon and Staff of the Wetaskiwin Hospital through the columns of The Times, wish to thank all those who have so kindly donated such abundance of beautiful flowers, all of which have been greatly appreciated by the patients and nurses. Also the Scandinavian Ladies' Hospital Aid for a dozen linen sheets which they donated.

## APPRECIATION

## McClary's "Sunshine"

Has been built to meet the demand for a good dependable furnace at a moderate price. It embodies the same good features that have made McClary's Furnaces so popular and is as economical in use as it is in price.

Equipped with McClary's air blast ring, it is capable of burning any kind of coal satisfactorily, and can always be relied upon to make any house warm and comfortable.

## VIERKOTTER WINS TORONTO MARATHON SWIM

Lake Shore, Toronto, Sept. 1.—Four and a half hours after Ernst Vierkotter of Germany had crawled to victory in the Canadian National Exhibition 21-mile marathon swim, Georges Michel, of France, finished the long grind at 12:45 a.m. Thursday morning and won second prize money, amounting to \$7500. Swimming with an easy, rugged stroke, Michel was greeted by several thousand people despite the late hour.

The official time for Michel was 16 hours and 12 minutes.

Walter Erickson was the sole remaining contender and he was not expected to finish before 4 a.m.

Competitors retired rapidly as midnight approached. George Young, the winner of the Catalina swim was taken from the water unconscious after only going five miles, shortly after Vierkotter had passed him.

## Here and There

Living births in Canada during 1926 totaled 2,022,000, according to the nine provinces being 24.8 per thousand of population. Deaths at all ages numbered 1,073,181 in the Dominion, a rate of 11.4 per thousand. Excess of births over deaths in the year was 1,148,819. A total of 60,070 marriages were reported during the year.

The general cool weather for this season of the year in British Columbia and the amount of moisture about has saved a great deal of timber from destruction by fire. So far this year there have been only 216 forest fires in the province, as compared with 570 for the similar period of last year. The present condition of the woods are excellent.

As a sign of agricultural progress in the west and industrial prosperity here, the International Harvester Company, Limited, have just sent two of the largest trailblades of threshers ever shipped to the west over C.P.R. lines from the east, the first train consisting of 43 cars with 111 threshers and the other of 40 cars containing 103 threshers.

The ratepayers of Victoria have endorsed a by-law providing for civic support of a proposed establishment of a motion picture producing industry here, by a vote of 2,137 to 653. The city was thereby authorized to guarantee bonds of the concern to the extent of \$200,000 after \$500,000 had been raised by British motion picture distributors and exhibitors.

A thriving new industry in Southern Alberta, which is making progress and is full of promise, is the raising of polo ponies. Three ranches are engaged exclusively in this industry and ranchers and farmers are coming increasingly to engage in it as a side line. About five carloads or one hundred polo ponies leave Southern Alberta annually for the United States.

The Development Branch of the Canadian Pacific Railway in co-operation with Macdonald Agricultural College is conducting experiments on the farm of Donald Fraser at Plaster Rock, N.B., to ascertain whether gypsum, of which there are large deposits, has special value in connection with potato culture. Members of the staff of the college are supervising field tests on the farm.

The itinerary of the party of one hundred British newspaper men who will arrive at Quebec August 12, provides that during the month they are in Canada the Britishers will visit practically every corner of the Dominion and, besides, will engage every city of importance, have an opportunity of studying at first hand Canada's natural resources and investment possibilities. They will travel across Canada and back on Canadian Pacific lines.

Ottawa, Ont.—Canada's total wheat yield for the season 1927 is forecast at 325,070,000 bushels by the Dominion Bureau of Statistics. The estimate for the three Prairie Provinces is 305,065,000 bushels for the rest of Canada 20,023,000. The total yield of oats is estimated at 389,768,000 bushels, of which 329,297,000 bushels is assigned to the Prairie Provinces. Barley is estimated at 88,830,000 bushels, of which the Prairie Provinces are expected to furnish 71,724,000 bushels. Rye is given at 12,169,000 bushels, of which 10,054,000 is allowed for the Prairie Provinces. For flaxseed, 5,319,300 bushels is estimated, of which all but 107,000 bushels is allowed for the Prairie Provinces.

The Times invites the cooperation of residents of the country districts. Correspondents from districts not now represented in this paper are requested to write in for correspondence paper and particulars.

## NO STALLING BUT HAMMER AND TONGS AFFAIRS WILL BE THREE BOXING TILTS HERE LABOR DAY

Flyweight, Featherweight and Welterweight Events in Which a Number of Provincial Amateur Champions from Edmonton Will Give Interesting Displays of Fistic Prowess—Billy Quilley, of Edmonton, Third Man in Ring

Every assurance is given that the boxing bouts in connection with the Labor Day Sports under the auspices of the Wetaskiwin Sports Association at the Exhibition Grounds here next Monday afternoon will be genuine displays of the fistic art. The boys from Edmonton who will participate in the three bouts were selected by trainer Quilley, to assist Wetaskiwin in the promotion of amateur boxing here, and with this in view it is needless to say that every endeavor will be made to create a most favorable impression.

In a communication to Chairman Bellamy, of the local sports committee, who was responsible for the securing of this attraction, Secretary John Leslie, of the Alberta Branch of the Amateur Athletic Union of Canada says: "You are sure of getting a good exhibition of the fistic art. They will not stall, but will give a hammer and tongs display all the way through."

The committee wishes to emphasize the fact that these events will be no Dempsey-Sparkey stuff, close-in wild jabbing and bugging tactics are not very perceptible in the stock-in-trade of amateur boxers, in which the milking is much more open, in which the punching will be stiff but clean, with an abundance of action.

Billy Quilley, who will be in charge of the visitors, and act as the third man in the ring, has been boxing trainer for the Canadian Legion in Edmonton for the past three years, prior to which he was trainer for the Eastwood Community League. He knows the boxing game from A to Z, having taken part in a large number of bouts in England before coming to Canada.

In the 96-pound event Johnny Smith and J. Adams will face each other. Smith was provincial champion in the 86-pound class in 1925 and this year won the 96-pound championship of the province, as well as winning in the inter-city meet staged between Edmonton and Calgary last stars.

W. Adams is said to be one of the best boxers Edmonton ever possessed. He won the 125-pound provincial championship in 1926, but this year suffered from an injury to his ribs just prior to the championships. He will be opposed by E. Zurich, winner of provincial championships for several years in junior classes. Last year he was 113-pound champion and at Calgary this year won the 126-pound bout, later contesting the Dominion championship tilt at Winnipeg, where he was runner-up.

For the 147-pound event, J. McIntyre and A. Wymchuk will mix their hooks. McIntyre won the 147-pound championship last year, but in the provincial championships at Calgary he lost out by a very narrow margin to Spier, of Calgary, in the inter-city contests, held last year, however, he turned the tables on Spier. Wymchuk is declared to be a crackerjack, having won at this weight in several tournaments held in Edmonton during the past few years.

\*\*\*Mrs. Lassell asks those wishing to register their children for kindergarten, to phone 249 or call as early as possible, as only a few seats are available. Ages 4 to 6 years. Morning or afternoon class.

## AIR FORCE MAN BEATS CANADIAN HOP RECORD

Winnipeg, Aug. 26.—Flight Officer Thomas Shields, of the Royal Canadian Air Force Squadron, landed at St. Charles flying field, near Winnipeg, at 5:50 on Thursday afternoon, from his 900-mile cruise. He injured his right hand during his stay in High River, where he conducted flying tests in the mountain regions.

Despite the fact that he was compelled to guide the machine all the way with his left hand, Shields made a perfect landing and seemed fresh after his 900-mile cruise. He injured his right hand during his stay in High River, where he conducted flying tests in the mountain regions.

## CAMROSE OBSERVES DECORATION DAY

Camrose, August 26.—Sunday next will be observed in Camrose as decoration day. This has been an annual event for several years. Every grave in the cemetery will be decorated with flowers provided by the citizens from the many beautiful flower gardens in the town, which at this time of the year are to be seen in their greatest beauty. The occasion is an entirely informal one, no ceremonies of any kind being observed.

While the cemetery belongs to the town, it is supervised by an independent board appointed by the council, two members of which are chosen from the town council. A caretaker is employed from early in the spring to late in the fall. Constant care has resulted in developing a cemetery which has become a credit to the town and district. A part of the ground has been devoted to a nursery, in which several thousand seedling trees of various varieties, shrubs, etc., have been set out, and in the future an ample supply of desirable nursery stock is assured with comparatively little expense.

## BORN

STEIN—In Wetaskiwin, on August 27, to Mr. and Mrs. Gus Stein, a daughter.

CROOKES—In the Wetaskiwin hospital, on August 27, to Mr. and Mrs. Crookes, a daughter.

GROVES—In the Wetaskiwin hospital, on August 27, to Mr. and Mrs. E. Groves, a son.

## APPRECIATION

Mrs. T. Alkous and family desire to thank the staff of the Wetaskiwin hospital for the many kindnesses bestowed upon their late husband and father. They are also very grateful to all those who sent flowers during his illness.

## CARD OF THANKS

Mrs. T. Alkous and family wish to thank the neighbors and friends for their kindness shown during their recent and heretofore, and also for the beautiful flowers contributed.

## Gossip of the Motor World

### HIGHWAY SAFETY MAIN THEME AT ROADS MEETING

Montreal, August 27.—Officials of the Canadian Good Roads Association report an increasingly intensive interest in the motor speeding controversy now heard in Ontario and Quebec. Opinion for the present is much divided as to the best methods of curbing the speed mania. When the Association holds its annual meeting at Niagara Falls on September 27, 28 and 29 it is certain that much discussion will centre around speed regulations or other methods tending to lessen dangers on the highway.

At the moment the experiment of Hon. J. L. Perron, Minister of Highways in the Quebec Provincial Government, is attracting much attention. Not long ago Mr. Perron bluntly announced that speeding in Quebec must stop. He intimated that traps would be set along important highways, and that cancellation of licenses would follow infractions of the law. This was no idle bluff on Mr. Perron's part. A number of licenses actually have been cancelled, some of the victims being people highly placed in Quebec society. Word has gone around that Mr. Perron is doing exactly as promised. A wonderful change has taken place, but whether permanent or not, is too early to state. It is a singular fact, however, that for the past two weeks accidents which could be ascribed to excessive speed have been reduced to almost nil in Quebec.

"Last weekend I drove over the Laurentian highway," stated an official of the Canadian Good Roads Association. "The change was most marked. This road has been used by speedsters quite a bit heretofore. During my drive I saw no cause for complaint in this respect. All speeds were moderate and drivers seemed to be exercising unusual caution and common sense. I believe such a desirable state of affairs, even if but temporary, must be attributed directly to Mr. Perron's action."

The recent letter of Sir Thomas White, former federal Minister of Finance, protesting against the "motor killing" which goes on on the highways of Ontario, has added much fuel to the controversy. He stated that no more important topic was before the

### HUGE INDUSTRIAL PICNIC HELD AT GENERAL MOTORS

Probably the largest industrial picnic ever held in Canada, took place when the employees of General Motors of Canada, Limited, and their families gathered at Lakeview Park, Oshawa, for their annual get-together. Over 25,000 men, women and children were there, and the spacious park on the shores of Lake Ontario was crowded from early morning until late at night. It was voted unanimously that the committee's slogan—"Higger and Higger Than Ever"—had been more than lived up to.

Everyone was there, from President McLaughlin to the youngest apprentice in the plant, and there was something doing for everyone, every minute of the day. There were races for men, women and children, starting with a race for babies under three, 20 yards, and ending with a mile open race for men, with numerous other races, including novelty races in between. There was a basketball contest for the boys, a mouth-on-gear, balloon blowing contest, Punch and Judy shows, and countless other games, merry-go-round, ferris wheel and whip, brought especially to Oshawa for the occasion. The soft-ball tournaments were features, 16 men's teams and four ladies' teams competing. Not the least entertaining, if not the best example of skill, was the soft-ball game between the General Motors executives and the superintendents.

The really big event of the day was the presentation in the evening by General Manager Gordon Lefebvre, of a beautiful new Pontiac coach to little six-year-old Lucie Wilson. The car had been running on a treadmill off the main street of Oshawa for nine days previous to the picnic, and any employee or his dependents was eligible to guess the number of miles shown on the speedometer, which was sealed up during the time the car was running. Young Lucie guessed within a fraction of a mile of the actual mileage. President R. S. McLaughlin presented the numerous prizes won for the various contests during the day.

A distinguished visitor at the picnic was Mr. James Macdonald, Minister of Trade and Commerce in the Federal Government. In introducing Mr. Macdonald, Mr. R. S. McLaughlin, president of General Motors of Canada, made some timely references to the splendid attendance at the picnic and to the general feeling of goodwill between management and employees. Mr. Macdonald spoke at length on the prosperity of Canada, and particularly as it affected the motor industry.

Music was provided all day by the 48th Highlanders' Band, Toronto; the 24th Regimental Band; the Legion Post 43rd Highland Pipe Band; the Salvation Army Boys' Band, and the General Motors Choir.

The concluding event of the day was a beautiful display of fireworks, which gave delight to grownups, as well as children.

Special arrangements were made for transporting the huge crowds to and from the lake by means of street cars, buses and motor cars, and it speaks well for the arrangements made, that everyone got to and from the picnic at a minimum of inconvenience.

### STOP! LOOK! LISTEN!

If some sudden disaster should take the lives of twenty-three thousand persons and injure several hundred thousand more, the world would stand aghast, relief agencies would rush aid to the injured, and the occurrence would be set down among the major catastrophes in the nation's history.

Yet more than twenty-three thousand persons were killed and hundreds of thousands more injured in automobile accidents in the United States last year, according to a report just issued by the National Automobile Chamber of Commerce. The death toll for 1926 was one thousand more than in 1925, and the heaviest ever recorded in this country in a single year.

From January 1, 1919, to December 31, 1926, says the report, 127,017 persons were killed by automobiles. The

total casualties of the American armed forces in the World's war were only 129,050. Since the Armistice, Nov. 11, 1918, automobiles have injured 3,500,000 persons in the United States.

It is only by referring to the figures that the immensity of the automobile accident problem can be realized. Every day of the year approximately 65 persons are fatally injured in this manner—about two and a half persons every hour, or one death every 25 minutes throughout the year.

Surely too much stress cannot be laid upon the need for adequate penalties for motorists who, through carelessness or incompetency, imperil human life and limb.—Helen T. Hume.

### BRING ME MEN

Bring me men of lofty vision,  
Bring me men of hopeful cheer,  
Men of pride and high devotion—  
Bring me men who seek at fear.

## MILLET LOCAL NEWS

School opens today—Thursday.  
Mr. T. H. Wells was a visitor to Edmonton on Saturday.

Mr. John Benham is having a garage built for the new Moon.

The light rain on Monday afternoon laid the dust nicely and cleared the air.

Mr. William Carr arrived on Monday from New Sarepta, to harvest his crop.

Miss Gora Moon, of Calgary, is spending a couple of week's vacation at her home.

Mr. and Mrs. Leslie Syme and child, of Edmonton, spent the weekend with Mr. and Mrs. J. B. Christie.

Mr. Grant Wolf had the misfortune to injure his knee in a fall over a week ago, and is still limping.

An enjoyable evening was spent on Friday at the dance given by the W.I. Girls' Club in the Community Hall.

Rev. J. B. and Mrs. Howard, of Edmonton, attended the funeral of the late Mr. Thomas Aikens on Wednesday.

Mrs. E. A. Smith and Miss Amie, arrived home on Friday after spending a few weeks at Vancouver and Victoria.

Ted Matheson and Renner Plant arrived home from their trip to Lloydminster and report the best of luck on the road.

On Friday of last week Mr. and Mrs. Henry Swail, of Saskatoon, were visitors at the home of Mr. and Mrs. J. B. Christie.

Miss Owen Christie has returned from Port Saskatchewan, where she was the guest of Miss Helen Adams for a few days.

Mr. J. English is acting manager of the Imperial Bank at Wetaskiwin for a few weeks during the absence of Mr. H. W. Wright.

Mr. and Mrs. Herb Dowler returned home last week to their home in Prince Albert, after having spent a few weeks at their cottage at Malhurst.

On Monday, Mr. and Mrs. J. B. Christie had as their guests, Mr. and Mrs. Will Cleveland, of Spokane and Mrs. Buchanan of Edmonton.

Mr. Ted Matheson left on Monday for Edmonton, where he has been transferred to that branch of the Imperial Bank. Ted has made many friends while in Millet and will be much missed.

Mr. Henry Moon had the misfortune to be thrown from his horse while roping a cow. He was thrown too near the heels of another horse, which, on being surprised, kicked and landed one on Henry's neck. It was a close call.

Every time he sends his girl a telegram, a jobber's salesman put it down in his expense book as "chicken wire."

THE FIVE OF BILDAD'S TEN TRAFFIC RULES

6. Never give any signal that you are about to stop or turn a corner, until after it is all over. If you hit anyone, don't stop to inquire or investigate—drive away as quickly as possible, blowing your horn to cover up any possible outcry.

7. Never hesitate to hawl out old people or children for getting in your way.

8. If unmarried, always carry three others with you in the driver's seat. If you can have your cutie on your lap it will steady your driving.

9. Never drive when sober if it can be avoided—a few drinks of white mullet will help prevent your missing needless pedestrians. Remember that dead men tell no tales.

10. If arrested, first hand the cop a quarter and then tell him he has his nerve to interrupt you and cause you any delay.

## THINK IT OVER!

## LIKE A LOOKING GLASS

People are peculiarly companionable, but they can easily be estranged. If you show friendliness toward people, they will mirror back your pleasant behaviour. If you frown on them, they will reflect your actions in their attitude. Human nature is like a looking glass, in which we see others, and the way they look to us is a true picture of the way we look to them.

## WIESENFORD W.I.

The August meeting of the Wiesendorf W.I. was held at the home of Mrs. T. Atkinson. The day was lovely and a large number of members were present.

It was decided that the Baby Clinic would be held in Telford School, all mothers being asked to bring their babies.

The president, Mrs. Kirk, is going to assist at the presentation of the flags to the Telford and Wiesendorf schools.

The next meeting is to be held at the home of Mrs. King.

A dainty tea was served at five o'clock, after which little Miss Beatrice entertained at the piano, the members then went through Mrs. Atkinson's garden, which deserved much admiration.

I SHALL NOT PASS THIS WAY AGAIN

I shall not pass this way again. The thought is full of sorrow; The good I came to today, I may not do tomorrow.

If I this moment shall withhold The help I might be giving, Some soul may die, and I shall lose The sweetest joy of living.

Only the present hour is mine—I may not have another In which to speak a kindly word, Or help a fallen brother.

The path of life leads straight ahead I can refuse it never; The daily record which I make Will stand unchanged for ever.

HERE AND THERE

If one could add to his life at fifty the time he wasted before fifty, many of us would add a quarter of a century to our lives.

Designers of men's clothes are said to be engendering their brains to devise some kind of masculine garment that women will refuse to wear.

About twenty-five years ago a herd of reindeer numbering 1,250 was brought from Siberia to Alaska. That herd now numbers about 350,000 head.

Tuna fish were caught at first in order to protect the sardines, upon which the tuna delights to feed; now the catching of tuna is a business in itself.

In 1926 the world's output of newspapers reached 6,100,000 tons, of which Canada produced 1,882,000 tons, her closest competitor being the United States, which produced 1,687,000 tons.

The Rotary Club at Lima, Peru, has placed a wrecked automobile on a concrete base alongside the road between Llaneros and Callao as a hint to reckless drivers that "the who goes slowly goes far."

"People who are content with the world today are either hard in the head or soft in the head, or both. Nine-tenths of the vulgar, senseless luxury which marks life today is showing off. It is nothing else but monkeydom."—Woodhull Willie.

## MILLING AND BAKING QUALITIES OF GARNET WHEAT

(Issued by Dept. of Agriculture, Ottawa).

Garnet seems entitled to rank among the good milling wheats. This is the considered opinion of Mr. L. H. Newman, the Dominion Cerealist, as expressed in his new bulletin on "Garnet Wheat." The chief point in which Garnet may be open to a little criticism is in the color of the flour which is slightly more yellow or creamy than that of Marquis. The unleached flour of Garnet when freshly milled may be described as light yellow or creamy yellow, while that of Marquis may be described as creamy white. Garnet seems to be about the equal

## Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes: "Over forty years ago my mother used to give me Dr. Fowler's Extinct of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

**Don't Accept a Substitute**

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

of Marquis in weight per measured bushel, and where the supply of moisture is ample it may even exceed the older wheat. The two wheats are about equal in flour yield, but the ash content of Garnet is generally appreciably higher than that of Marquis. Current flour generally produces a little higher bread yield and a loaf of slightly greater volume than Marquis. In texture of crumb Garnet is almost equal to Marquis, and superior to Early Red Pile, Early Triumph and Kitchener. Good texture combined with high volume is commonly regarded as an indication of high baking strength.

## FORMER MILLET RESIDENT PASSES AWAY

The death occurred at the University Hospital, Edmonton, last Thursday evening, of J. Wesley Gray, brother of W. L. Gray, of Millet. The deceased was 47 years of age and leaves a wife, three sons and one daughter residing at Lakeside, Alberta, where they have lived for several years. He was a pioneer of Millet district, home-making a few miles from town in 1900.

Mr. Gray had been in poor health for about a year past and had spent a some time at the Pacific Coast, but a few weeks ago a serious condition developed and he passed away on Thursday evening.

His brother, Hugh, arrived from New Westminster, B.C., on Saturday and went with W. L. Gray to the funeral held from C.R. Alberta. Interment was made in the Daysland Cemetery.

Every time he sends his girl a telegram, a jobber's salesman put it down in his expense book as "chicken wire."

THE FIVE OF BILDAD'S TEN TRAFFIC RULES

6. Never give any signal that you are about to stop or turn a corner, until after it is all over. If you hit anyone, don't stop to inquire or investigate—drive away as quickly as possible, blowing your horn to cover up any possible outcry.

## C.P.R. CROP REPORT

Winnipeg, Man., Aug. 29.—(Weather in the West since the last report has been for the most part favorable, according to the weekly report on Western crop conditions issued today by the agricultural department of the Canadian Pacific Railway. Light frosts were registered at numerous points in Manitoba and Saskatchewan on the night of August 22nd, but beyond some injury to garden stuff, no serious damage resulted. Cutting was begun on a standstill towards the end of the week by heavy rains that proved to be quite general. With brilliant weather over the week-end cutting should be generally resumed today or Tuesday. Considerable wheat and some early oats and barley have been cut, farmers in some instances, fearing rust, have cut a little on the green side. Frost damage, while severe in individual instances, is not considered serious when the whole crop situation is considered, and most of the earlier wheat is now believed out of danger from that source. As has been the case all through the latter part of the growing season, livestock is in

excellent condition. Hay and fodder crops of all kinds are abundant. Saskatchewan.—The weather during the greater part of last week was favorable, but showers halted cutting in many localities towards the latter part. Harvesting should be general in a few days. Most continues to show development. The crop as a whole promises to be a satisfactory one. Oats and barley are generally good, but all crops need a period of warm weather. Pastures are excellent. Alberta.—Wheat is coloring fast and the crop is splendid over the entire province. Considerable cutting has been done, but this is only where there is an early variety of wheat. The harvest will become increasingly general from now on. Some districts in the southwest will require another week or ten days before the crops are matured. Sawfly has been evident in some districts, but the damage so far has not been important.

## So's Your Old Man

"I'm a father!" cried young Jones as he burst into the office.  
"So's your old man," replied the boss. "Get to work."

## Church and Sunday School

ST. ANDREW'S PRESBYTERIAN

\*\*\*The Women's Institute are holding a tea and food sale in the W.I. rooms on Saturday, Sept. 24, from 3 to 6 p.m.

The Lutheran Church of Canmore is again supplied with a pastor, Rev. Radecke having been installed on Sunday by Rev. Thies.

## Neighborhood NEWS

## BRIGHTVIEW

On the evening of August 23, the congregation of the Evangelical Lutheran church carried out a perfectly planned scheme for surprising their new pastor, Rev. J. Ohlinger and his wife, who had just arrived in the community. The members assembled at the church and then filed into the parsonage grounds, and found the honored guests busy getting settled in their new home. The evening was spent very happily as the young people had games on the lawn, and the older folks entertained themselves in different ways. The ladies brought large hampers and a sumptuous repast was served, and when the gathering dispersed it was found that the shelves of the pantry were loaded down with provisions of all kinds, (including fruit. While the assembly was still feasting, some of the ladies, with plates in hand, sang "Gib der Braut, einen Taler wer tut der Braut einen Taler schenken, der wird auch ein sie denner" and as a result of this song \$285 was realized. Rev. and Mrs. Ohlinger wish to express their heartfelt thanks to all those who had anything to do with their reception and invite everybody to come into their parlor and see what use was made of their contribution.

## GWYNNE

Mrs. Philtraut, of Wetaskiwin, is visiting at the home of Mrs. E. D. Cole.

Mr. Ed. Holtner, Mr. S. Loh and Mr. J. MacKenzie were Gadsby visitors on Sunday.

Margaret Inglis has gone to Oids, where she will take up Grade IX. Mrs. Quessell and family have left for their home in Vancouver. A number from here were Perintash visitors on Sunday, including, Mrs. Margaret and family, Mr. and Mrs. P. Girard and Raymond, Mr. Girard, of Detroit, Mr. C. Maynard and Lorne, Mr. A. Magnuson, Mr. R. Anderson, Mrs. I. Johnson and daughter, and Miss A. Shantz.

On account of the rain the "soft" game was postponed till further notice.

The regular monthly meeting of the Gwynne Sunshine Club was held at the home of Mrs. Chas. Freeman on Sunday, August 29. A good number turned out and after the business part of the meeting, a dainty lunch was served. A hearty vote of thanks was extended to Mrs. George Beave for her assistance, and we regret seeing them leave the district.  
Mr. C. Maynard, Mr. A. Lee, Mrs. Cole, Mrs. Quessell and family, were Edmonton visitors last week.

## DUHAMEL

HAUKEDAL—PETERSON  
A very pretty wedding took place at the Canmore United Church on Friday, August 26, when Olga Ingelborg, only daughter of Mrs. S. Peterson, of Edmonton, became the bride of Joseph E. Haukedal, son of Mrs. P. Haukedal, of Duhamel. The Rev. S. Synshon officiated. The bride was charmingly gowned in peach colored silk crepe, with touches of silver, and carried a bouquet of red sweet peas and asters. She was attended by Miss Marven Lundberg, of New Norway, who wore Copos blue velvet and carried a bouquet of mauve and white sweet peas. Mr. Edwin Peterson, of Edmonton, a brother of the bride, supported the bridegroom. A dainty wedding dinner was served at the Briard Hotel, Wetaskiwin, after which the happy couple left for a short honeymoon to Hanf.

Advertise in the paper that circulates all over the district thoroughly.

## FERRY BANK

A stampede and sports took place at the Battle River fair, Ferrybank, on August 25, when a good crowd assembled and an enjoyable time was spent. A jittery dance took place in the evening, the music being furnished by the Wetaskiwin Twinklers. The following were the prizewinners: Break riding, middle—L. Armstrong; 2, C. Dorn; 3, C. Dorn. Circle—1, Armstrong; 2, Buomer; 3, Campbell.

Ladies' horse race—1, Alpha Lee; 2, "I. Yell."  
Boys' horse race—1, E. Jameson; 2, J. Lee.  
Free for all—1, E. Jameson; 2, J. Stoney.

Wild horse race—1, T. Jameson; 2, C. Dorn.  
If even a few friends of The Times will only remember us from week to week in a little way, it will help amazingly to make this paper much newer and therefore that much better from the real test of a paper, the subscriber's standpoint.

## KINDERGARTEN

Mrs. Lasell wishes to announce that she will open a Private Kindergarten Class at her residence, Roseroll St. and Dickson Ave., about September 6. Mrs. Lasell will give an up-to-date kindergarten training for children 4 to 6 years of age.  
The class will be from 10 to 12 a.m., or 2 to 4 p.m., as parents wish, and those interested are invited to call or phone 249 as early as possible, as only a limited number can be accommodated.

## KEPT HIGH AND DRY

The angler with an elastic imagination was spinning his usual yarn. "Yes," he said, "it was the biggest fish I have ever hooked—and before I realized it I was pulled right out of the boat."  
"You must have had a nasty wetting," declared one of his listeners. "Oh, not a bit of it," replied the angler. "You see I fell on the fish."
